The 3.3L also has the Ford port-fuel and direct-injection (PFDI) system with two injectors per cylinder — one mounted in the air intake port, another inside the cylinder. The 6-speed automatic transmission has three selectable modes to suit the driving condition: Normal, Tow/Haul and Sport. ...less

2020 Ford® F-150 Truck | Power Features | Ford.com

The 14.3L diesel engine is unlike any found in a production vehicle, and not just because of its enormous 873 cubic-inch displacement. It features no valve train, and a two-cycle operation rather than the more normal four-stroke we're familiar with. It also uses an opposed-piston flat-layout, with eight pistons despite its cylinder count.
