mercedessource Tech help - A common problem on all models. Options for repairing it yourself and saving big \$\$\$. If your heater motor won't come on, first check your fuse or relay. If you are not sure if the switches are the problem, we recommend you get the covers off and power the motor directly with a 12 volt power source. If the motor will just not run, many times the problem can be solved ...

Heater Blower Motor Won't Run | Climate Control Problem ...

The climate control system on a 1979 450SL is usually referred to as ACCII (Automatic Climate Control, version 2) system. In the engine compartment, up next to the firewall on the passenger side (US models) you'll find a black-capped tower with many electrical and vacuum connections. This is called the servo.
