### Cessna 1979 Skylane Rg Model

A 1979 turbo model with only 2700 hours total time and 970 hours on the engine, the airplane was fitted with a standard stack of Cessna radios plus a King DME. The paint was new, but the rest of the airplane was original: a 36-year old, middle-of-the-road family station wagon without a mean bone in its aluminum body.

### Cessna 182RG Specs and Performance - Skylane Specs and ...

In 1979, Cessna added a turbocharged version of the Skylane RG to its line. The turbocharged model provides sea-level performance at altitude. Its rate of climb at 10,000 feet is 890 fpm, while at 20,000 feet it's 660 fpm. Above 10,000 feet, the Turbo RG will climb twice as fast as the normally aspirated model.

Ignore maintenance on a Skylane RG and you'll pay for it sooner or later. History of the Line Cessna put folding legs on the redoubtable Skylane relatively late in the GA came. The first models arrived in 1978 and the model faded by 1986, along with the rest of Cessnas piston line.

### **Cessna 182 RG Skylane RG - Aviation Consumer**

The model designation nomenclature differs from some other Cessna models with optional retractable gear. For instance the retractable version of the Cessna 172 was designated as the 172RG, whereas the retractable gear version of the Cessna 182 is the R182. Cessna gave the R182 the marketing name of "Skylane RG".

### **Cessna 182 RG Specifications, Cabin Dimensions, Performance**

The Cessna 182 Skylane is an American four-seat, single-engined light airplane, built by Cessna of Wichita, Kansas. It has the option of adding two child seats, installed in the baggage area. Introduced in 1956, the 182 has been produced in a number of variants, including a version with retractable landing gear, and is the second most popular Cessna model still in production, after the 172 .

To create the model, Cessna took the popular 182 and gave it a variation of the folding electro-hydraulic gear used on the 200-HP Cardinal RG, which had been introduced two years before. The R182 (that's the correct type designation, not 182RG) got a bigger Lycoming than the 182s 230-HP Continental O-470; the retractable came with the Lycoming O-540-J3C5D, which required adding four inches to ...
