for your daily fodder,  
so get to it now!

### **Data Structures In C**

Data Structures in C  
are used to store data  
in an organised and  
efficient manner. The C  
Programming language  
has many data  
structures like an  
array, stack, queue,  
linked list, tree, etc. A  
programmer selects an  
appropriate data

# Online Library

## Data Structures In

C structure and uses it according to their convenience. Let us look into some of these data structures: Array; Stack ; Queue

### **What are Data Structures in C and How to use them? | Edureka**

C - Structures Defining a Structure. To define a structure, you must use the struct statement. The struct statement defines a
