The new Deutz engine, on the other hand, has 2 pumps serving a similar system so even if one misses the other will maintain the pressure. The problem is an electronic one in the engine control programme. And no, it's not the same engine as a Same Rubin 150, it's a completely new engine for the Agrotron M range.

DEUTZ Diesel Engines For Sale & Distribution

Recently we've seen fresh factory remanufactured engines experience premature failure upon being put into service. If your Deutz 1011 or Deutz 2011 diesel engine has failed due to a turbo problem, piston problem, or a head gasket failure, take note. It is imperative that you check and clean out the exhaust system to include the exhaust manifold and muffler.
